Modern Day Tarot Forms

Step 2: Suits

Cups	*Pentacles*	*Swords*	*Wands*

Use this form to divide all the items you came up with in Brainstorming Step one and decide which suit should represent which items. Try and be very logical in your groupings putting like subjects under the same suit. Be sure that you do not spread similar items across suits. Remember that you are building a tarot language or framework and all must fit together well for the finished product to turn out right.
